

VAISHAKH PILLAI

Profile

An aspiring cybersecurity professional with a technical background and a deep passion for learning about digital security. Eager to explore and develop expertise in various aspects of cybersecurity, from threat detection to risk management. Committed to continually growing my knowledge and contributing to a team's efforts to enhance and strengthen the organization's overall security posture.

Work Experience

I'm currently pursuing and completing B.Tech in Computer Science and Engineering with a specialization in Cybersecurity from Ganpat University. My coursework has provided me with a strong foundation in cybersecurity concepts.

I have recently started studying forensic analysis tools like Autopsy and FTK, along with penetration testing tools such as Wireshark, Nmap, Hydra, and Metasploit. My goal is to deepen my expertise in cybersecurity, focusing on forensics and penetration testing, and contribute to a team that values innovation, problem-solving, and secure system practices. I am eager to apply my knowledge in a professional setting where I can learn, grow, and make a tangible impact.
